For Students

I offer my assistance to solve

problems concerning

- classmates
- parents
- teachers
- school in general
- public authorities and offices

I can also help you find

- solutions
- freetime activities
- homework tutoring
- information centres and counselling
- further training opportunities

I am always ready to listen to any issues that concern you e.g.

- friendship
- conflicts/disputes
- homesickness
- future
- feeling lost or alienated
- fears

However, I am not just there for problems.

I would like to plan and realize projects with you that can make school interesting and an inspiring place for everyone.

For parents

I would also like to support you as parents with the following issues

- education and vital matters
- advice and support with filling out forms and problems with public authorities and offices
- making contacts with others providing assistance
- mediation to cope with difficulties occurring at school
- family problems
- comprehension problems related to the German language

If you wish to speak me, the best is to arrange a meeting on the phone or to ask your .

Important

School social work is voluntary, free of charge and confidential

This means, in particular, that everything we discuss is just between us.

The only exception would be if it is your explicit permission to talk about these matters, for example to teachers, counselling centers or if there is an acute risk or danger.

Exam results, grades and assessments are not important to me.

Sometimes taking the first step can be difficult. It would be no trouble to bring someone along to support you.

Any communication problems? Then I will try to find an interpreter.
